Dr. Stephen R. Sroka, Ph.D.  
Health Education Consultants

Dear Dr. Sroka,

Many thanks for coming to Saint John Neumann on April 21<sup>st</sup> and talking to our students and parents about "The Power of One."

You captivated the students by your fast paced style and overhead information based on sex, drugs, alcohol and violence in our youth. I was especially grateful that you stressed how important it is for them to respect themselves. Your style put them at ease with the topics.

Students have told me it is the best presentation they have ever had. Teachers said that if a student were anywhere else but there, they missed an important presentation. ALL the comments that were shared were of such a positive nature. The students have filled out the evaluation forms for us and we will use them to plan for the future. It appears that they were very candid in their responses.

It was a pleasure to work with you. You were always cooperative and gracious in your dealings with all the arrangements that we made. Teachers have asked for your information to pass it on to their friends—that should tell you how they felt about you. It was an honor to work with you and I would highly recommend you for future talks to students and adults.

Please feel free to use my name if someone would like a reference.

Peace,

A handwritten signature in cursive script, appearing to read "Joyce F. Hojnacki".
