To Whom It May Concern:  
Re: Stephen R. Sroka Ph.D.

Dear Sirs:

I am writing in recommendation of Dr. Stephen Sroka as a lecturer and Grand Rounds speaker. On March 1, 1990, he gave a lecture entitled "Drugs, Sex, and AIDS-Not a Laughing Matter or Is It?" to an all divisions multidisciplinary audience including all levels of hospital staff. In one hour, Dr. Sroka presented his information in a fast paced, at times lighthearted, but very professional manner. The response to his lecture was overwhelming. He received a composite rating of 4.8 out of 5.0 including comments such as the following:

- "One of the best lectures I have attended"
- "Excellent coverage"
- "Outstanding speaker-This is exactly what I needed for my practice"
- "Great program...Bring Dr. Sroka back"

As Chief Resident in Pediatrics, I served on the Grand Rounds Committee and was instrumental in bringing Dr. Sroka to speak at our institution. I would have no hesitation in recommending him to speak at any medical institution to the medical, nursing, and allied health staff.

Sincerely,

Manuel M. Spirtos, M.D., F.A.A.P.

Attending Physician  
Tod Children's Hospital  
Chief Resident 1989-1990  
Grand Rounds Committee, Chairman
